

Press Release

The ultimate in flexible transportation: FastTrack now also available at DUSS terminal Munich-Riem

- **VTG further expanding its established offerings**
- **Container carriers available for ad-hoc transports**
- **Bookings can be placed round the clock on online traigo platform**

Hamburg, September 5, 2022. Already well established at ports such as Rotterdam and Gothenburg, FastTrack is now also going off the blocks at another key European freight node. With immediate effect, the service can also be booked at the DUSS terminal in Munich-Riem. FastTrack maximizes flexibility for customers. Thanks to 24/7 availability, it gives them a fast and easy way to book extra capacity in response to ad-hoc planning needs or unexpected outages. Reliable, high-quality transports are thus guaranteed.

“We have set up a premium service throughout Europe in the shape of FastTrack, and we are thrilled to be adding another attractive location to this network,” says Thomas Dittmann, Head of Digital Products at VTG. “The ability to make wagons available in Munich at short notice and with digital support helps us provide additional capacity to guarantee failsafe transports, most of which would otherwise be carried by road. Besides being a very attractive service for our customers, this also plays a part in realizing the transportation and environmental policy goal off shifting freight off the roads and onto the rails.”

Fast and flexible replacements: Online bookings via traigo in Munich

The DUSS terminal in Munich-Riem is the pivotal hub between Central and Southern Europe, bundling transports to and from Italy in particular. It is thus a central transshipment point for numerous operators and hosts a large number of railway companies. Starting now, customers at this terminal can go online and book single wagons (90-foot container carriers) for maritime and continental transports at any time of the day or night. VTG’s digital rail freight offerings are pooled under www.traigo.com, giving customers central access to digital fleet management.

About VTG:

Headquartered in Hamburg, VTG Aktiengesellschaft is a global asset owner and logistics company with a strong focus on rail. Besides hiring out rail freight wagons and tank containers, it also provides multimodal logistical services and integrated digital solutions. The company’s fleet includes around 88,500 rail freight wagons – mostly tank wagons, intermodal wagons, standard freight wagons and sliding-wall wagons – as well as about 5,000 tank containers.

This diversified service portfolio gives VTG’s customers a robust platform for international freight transportation, based on which the company develops made-to-measure logistical solutions for any and every industry. Over many years, VTG has accumulated granular expertise across the entire transport chain – expertise that is now flanked by smart technology. The Group likewise combines a wealth of experience with a specialized knowledge of the transportation of liquid and sensitive goods in particular. Its customers include a plethora of leading companies representing the chemicals, petroleum, automotive and paper industries, agriculture and virtually every other sector besides.

VTG posted revenue of EUR 1,221 million and an operating profit (EBITDA) of EUR 472 million in the 2021 financial year. The Hamburg-based company's subsidiaries and affiliates give it a sizable footprint in Europe, North America and Eurasia. Effective December 31, 2021, VTG employed around 2,150 people worldwide.
